

NCR Inking Ribbons

Imaging Solutions

Want to learn how better inking solutions can help keep your business flowing?

YES

Maximize printer performance and lower supply costs

NCR understands the critical nature of supplies and how they can impact your business. NCR offers a complete line of certified inking media designed to provide longer character life, improved equipment performance and lower failure rates. The result is better performance and productivity for your business at a reduced cost. NCR supports virtually every major equipment manufacturer including NCR, Fujitsu, Epson, Citizen, Star, Diebold, Seiko and IBM. Count on NCR to meet your inking supply needs.

- **Keep systems up-and-running to increase customer satisfaction and staff productivity**

Few things upset customers more than waiting in line because of system problems. Those same system problems reduce your staff's productivity. With NCR, you have confidence that you are using the highest quality Inking Ribbons, crucial for maintaining system uptime and reliability. Your staff can focus on their core job tasks, resulting in better service for your customers.

- **Minimize your total cost of ownership**

Beware of the high cost of low priced inking supplies. NCR Inking Ribbons are designed for maximum character life and lower failure rates. You'll buy fewer ribbons, experience less printer downtime, have minimal ribbon related service calls and reduce ribbon distribution costs when using NCR Inking Ribbons. This leads to a lower total cost of ownership for your business.

- **Fulfill all your inking supply needs easily, from one source**

NCR offers a complete product line to support all of your inking media needs, including ink rolls, spools and cassette ribbons for electronic cash registers, point of sale, ATM, teller machines, information processing equipment and wide computer printers. You can easily order supplies and get support from one supplier—NCR.

Experience a new world of interaction

NCR Inking Ribbons

- **Get quality printing results that meet or exceed manufacturer standards**

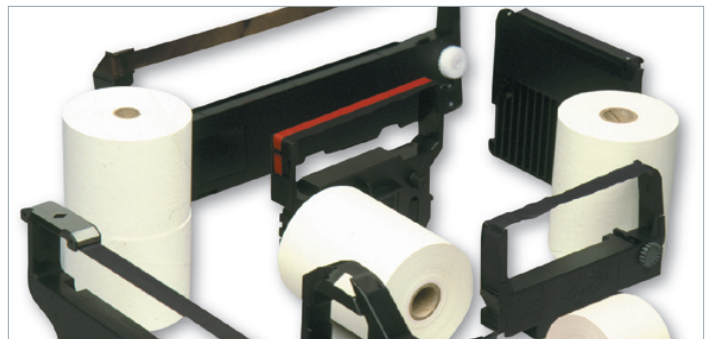

NCR's inking ribbons are designed and manufactured to precise equipment specifications. NCR's research and engineering staff designs cassettes that not only meet stringent fit and function criteria, but also achieve the longest possible character life. In most cases, NCR Inking Ribbons outperform products from the original equipment manufacturer. NCR uses an ISO Certified product development laboratory, complete with a wide array of printers and testing equipment, to verify character life, ink content, torque, weld strength and other critical elements so that you get the best results from NCR products.

Why NCR?

NCR is the global leader in assisted- and self-service solutions, serving businesses in the retail, financial, travel, healthcare, hospitality, gaming and other industries. We help our clients around the world improve their customer interactions, implement change quickly and proactively, and transform their businesses to become leaders and change agents. We can help you, too.

Key Features

- Complete Product Set
- Long character life and low failure rates
- Trouble- free designs molded from engineering grade plastics
- Durable, flaw-free nylon fabric
- Long-lasting, dye-based inks, finely ground to reduce premature print-head wear
- Lubricating inks to enhance performance and improve printer function

NCR Inking Ribbons

NCR continually improves products as new technologies and components become available. NCR, therefore, reserves the right to change specifications without prior notice.

All features, functions and operations described herein may not be marketed by NCR in all parts of the world. Consult your NCR representative or NCR office for the latest information.
